

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: N/A

Project Title: Gas Co. Road Solar Energy Project

Lead Agency: City of Taft

Contact Name: Mark Staples, Director of Planning and Development Services

Email: mstaples@cityoftaft.org Phone Number: (661) 763-1222 ext. 124

Project Location: City of Taft Kern
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Project includes construction and operation of an up to eight (8) megawatt alternating current (MWAC) crystalline solar photovoltaic (PV) energy generation facility, power conversion system (PCS), and Battery Energy Storage System (BESS). The Project site consists of two irregular-shaped parcels. Parcel Number 220-240-26, which is approximately 53.24 acres, is zoned for Industrial uses and would be developed with the MWAC solar PV energy generation system and BESS energy storage system. In addition to the solar PV modules that would be mounted on fixed-tilt ground-mounted racking or single-axis trackers, the Project site would be developed with battery storage system containers, electrical inverters, associated transformers, power poles, an access road, and perimeter fencing. Parcel Number 220-300-14, which is approximately 5.01 acres, is zoned for General Commercial uses and is an accessory parcel that would be used as a staging and parking area during construction activities. However, no permanent structures would be developed on this parcel as a result of Project development.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potentially significant impacts to Biological Resources, specifically to protected or endangered wildlife species, would be reduced to less than significant with mitigation incorporation. No potentially significant impacts would occur.

Potentially significant impacts to Cultural Resources, specifically to archaeological resources and buried human remains, would be reduced to less than significant with mitigation incorporation. No potentially significant impacts would occur.

Potentially significant impacts to Cultural Resources, specifically to paleontological resources, would be reduced to less than significant with mitigation incorporation. No potentially significant impacts would occur.

Potentially significant impacts related to airport Hazards would be reduced to less than significant with mitigation incorporation. No potentially significant impacts would occur.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
